"Other Arrangements: An Evening of Screenings Selected by Frédéric Moffet," New Museum, New York

"Other Arrangements" was a film program organized by Frédéric Moffet. The selection of short films and videos offered historical and philosophical perspectives on queer folks' struggles with traditional concepts of marriage and family, while exploring alternative avenues based on friendship, community, and contacts with strangers.

Frédéric Moffet introduced and contextualized his selection of videos and was later joined by artists Benny Nemerofsky Ramsay and Oli Rodriguez for a Q & A and conversation. [Download audio file \(mp3\)](#)
